

PLG-IP serie of Horticulture Lamp

Dimension: 450x320x270mm

This high-end lamp is most suitable for agriculture laboratory or other applications. It can replace the old generation Philips lamp (type) which are no longer produced nowadays.

It is equipped with high-efficient electromagnetic or electronic ballast. The lamp is closed with tempered glass to protect insects and dust entering the lamp and pollute the reflector.

Features:

- Elegant and modern design
- Cast aluminium reflector
- Equipped with 4.5mm tempered glass, easy for maintenance

Specification/Spezifikationen

Type	Description
PLG402-VVG for HPS	400W, electromagnetic ballast for High Pressure Sodium bulb, 230VAC, 1,95A, Power factor 0,92 Weight: 10.0kg, IP65
PLG402-VVG for MH	400W, electromagnetic ballast for Metal Halid bulb, 230VAC, 1,95A, Power factor 0,92 Weight: 10.0kg, IP65
PLG402-EVG for HPS Dimmable or not	400W, electronic ballast for High Pressure Sodium bulb, 230VAC, 1,86A, Power factor 0,92 Weight: 7.0kg, IP65

Electromagnetic Version

Features: very stable, long life time

Electronic Version

Features: high efficiency, light in weight, dimming possible

Glass Cover

Manuell dimmable

- PLG402-EVG

Central control and dimmable system
